Call for 2011 Missouri Reentry Conference Presentation Proposals:

The purpose of the conference is to provide high-quality education and networking opportunities for corrections professionals and community-based partners who contribute to the prisoner reentry process. The multiple tracks format offers a self-directed, facilitated learning environment with education sessions, interactive forums and exhibits. Education sessions are carefully designed to transcend all industry sectors, focusing on current and emerging issues, best practices, and the many challenges that the community, corrections staffs and ex-offenders face. Thank you for considering making a presentation.

Overview:

The hosts for the 6th Annual Conference are ARCHS, the Missouri Department of Corrections, the Missouri Department of Social Services and The Family & Community Trust (FACT).

Most sessions are scheduled to last 60-90 minutes in length. Your proposal may be considered for participation in panel discussions in addition to a standalone presentation or workshop. It is important to note that the committee will give the greatest consideration to proposals that incorporate and represent evidence-based practices, best practices, and proven solutions or would add to professional development.

An individual may submit a maximum of two proposals as the only or primary presenter, however the opportunity to participate as a panelist in additional sessions exists.
